

## **Industry Intermediary**

Appteon, Inc.

### **Industry**

Information Technology

### **Approved Occupations**

Information occupations including Application Developer, Business Analyst, Computer Programmer, Computer Support Specialist, Cyber Security Support Technician, Data Analyst, Digital Marketer, IT Specialist, IT Generalist, Network Support Technician, Telecommunications Technician

### **Target Apprentice Populations**

- Women, Minorities, Persons with Disabilities, Veterans, Underserved populations

### **Project Overview**

Appteon has been developing technology solutions for nearly 20 years including supporting the Office of Apprenticeship with the modernization of RAPIDS and creation of tools such as Standards Builder, Quality Performance, and Salesforce data integration with RAPIDS. As an IT Employer, Sponsor, and Industry Intermediary, we understand the complex workforce challenges of the industry and the value apprenticeship can bring to recruiting, training, and retaining technical talent. Our workforce development team with its education, workforce system, and apprenticeship expertise guides sponsors in the development and expansion of regional and national inclusive apprenticeship programs.

### **Types of Services/TA Provided**

- Facilitate development of standards between employers and the apprenticeship system. Provide customized assistance in EEO/AAP, connection to DEIA resources, identification of funding and networking sources, outreach to employers and candidates, sharing of best practices.

### **Key Partners**

- Greater Washington Apprenticeship Network
- ICF
- Women in CyberSecurity (WiCyS)
- Apprenticeship sponsors and target population partners throughout the U.S.
